BlackBerry®
Curve™ 8900

Experience Vibes

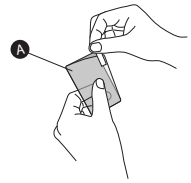

Thank you for choosing the iSkin Vibes to help keep your beloved BlackBerry® Curve™ 8900 safe. The Vibes combines legendary iSkin protection with fashionable design and form-fitting, low-profile styling. Made from a flexible polymer, the Vibes is designed to offer BlackBerry Curve body protection without adding bulk or altering its aesthetic qualities. The Vibes also includes a screen film to help protect against screen scratches.

1 Prepare your BlackBerry Curve

Gently and thoroughly clean your BlackBerry Curve using a soft, lint-free cloth, and remove all surface dirt or oil. Also ensure that you wipe the screen to remove any small dust particles.

2 Installing the Screen Protector

1 For best results, ensure your BlackBerry Curve screen is free of dust particles and other impurities.

Peel away the plastic on "Side A" of the Screen Protector and reveal its tacking side.

2 With "Side A" (the tacking side) facing the BlackBerry Curve, evenly apply the Screen Protector. Rub the Screen Protector gently, from side to side, in order to remove any air pockets that may have formed during installation.

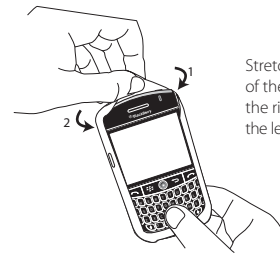

3 Once the Screen Protector is firmly in place, peel away the plastic on "Side B" of the Screen Protector (the side facing up). This completes the installation of the Screen Protector.

The included Screen Protector does not use adhesives, and can be removed anytime without leaving residue on the BlackBerry Curve.

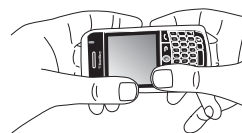

3 Placing the BlackBerry Curve into the Vibes

Turn the BlackBerry Curve off. Insert the BlackBerry Curve into the lower portion of the Vibes as shown.

Stretch the Vibes over the top of the BlackBerry Curve from the right corner (1) and then the left (2) until perfectly fitted.

Massage the Vibes to a perfect fit, aligning all edges, controls and openings.

4 About Microban®* Antimicrobial Protection

The Vibes' premium flexible and durable soft material features built-in Microban antimicrobial protection. Microban's globally trusted antimicrobial protection is used in a variety of consumer items, such as baby products, personal care products, food storage products, and more. Microban protection provides a continuous antimicrobial cleaning action to inhibit the growth of bacteria, mold, and mildew, which can cause deterioration of your Vibes.
